

INNOVA COLLECTION PLANK

ABOUT

Simpson INNOVA PLANK – the perfect finishing touch to enhance and protect the exterior of your home or commercial building. Our high-quality plank products are designed to withstand the elements while providing a beautiful, polished look. Whether you're updating an existing facade or embarking on a new construction project, InnoVA PLANK offers a stylish, durable, and low-maintenance solution that adds both value and curb appeal.

BASIC USE INFORMATION

Simpson's fiberglass reinforced foam panels are designed for quick and efficient installation, reducing labor costs and project timelines. The interlocking panel system allows for seamless integration, minimizing thermal bridging and air infiltration. These panels can be used in a wide range of residential, multi-family, and commercial applications, offering versatility in design and construction. They can be installed over various substrates, including wood framing, concrete, and masonry, making them suitable for new construction as well as renovation projects.

MANUFACTURER

Simpson Panel
30851 US Hwy. 278
Addison, AL 35540

PRODUCT TESTING INFORMATION

Structural Evaluation Pensacola Testing Laboratory

QAI Laboratories ASTM E84-17a Fire Resistance Certified

Miami Dade County Approved:
NOA No. 23-0314.08

TEXTURES

INNOVA provides textured finish panels replicating classic looks like stucco and granite. PLANK is offered in two textures. SAND offers a smooth but gritted stucco aesthetic, SMOOTH delivers an ultra-sleek glass-like finish, and WOODGRAIN offers a classical wood appearance with far less hassle.
